## Class leading design

UNO is the most elegant way of securely presenting your portable device including smartphones, tablets, cameras, navigations and audio equipment. The transparent display stands elevates the presented products and provides these an appealing lightness.

## Efficient

UNO is the fastest way to secure & organize your product presentation, because all electronics is integrated in a compact controller which is placed at the top of a display in a matter of minutes. This controller also supports the different types of acrylic display stands. Exchanging the displayed merchandise is a matter of few simple actions and easily doable by store staff.

## One for all

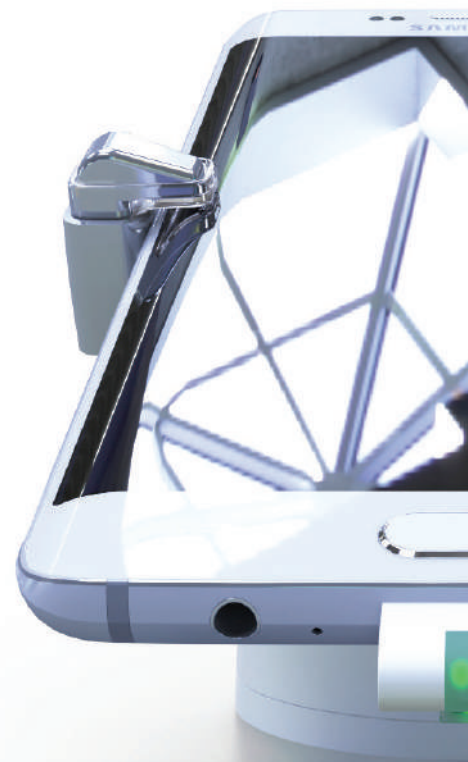

A series of acrylic display stands and sensors makes the UNO the perfect companion for all categories consumer electronics. Whether you have a wall or table top display, UNO is designed to perform and fulfill your requirements.

## No compromise

UNO is not only a great looking display solution but also a secure one. Alarm on powerplug and options like clamps for phones and tablets make it suitable for various security requirements.
