

THE NEW ONE

UNO EVO

Whether phones, tablets, smartwatches, speakers, headphones, laptops or cameras; with the UNO series all consumer electronics can be discreetly and securely presented in no time. For good reason the UNO series, with thousands of installations, is the most sold series in the SENS program and one of the most successful display security products of Dutch origin.

The basis is formed by the UNO EVO, the 2nd generation super-compact controller on which a wide range of transparent product stands can be easily attached. Alarm and charging functions are integrated into the UNO EVO. And because this latest version also includes PowerDelivery 3.0 as standard, phones and tablets can also be charged effectively in demo mode.

What other advantages does the UNO EVO offer?

The minimalist design has been tightened up and optically slimmed down some more. In addition, the number of outputs has been doubled. And installing the UNO is even easier than with its predecessor. Which in that respect was already in a class of its own.

New is that the UNO EVO is also available as a Protection-Only version. Which, thanks to an integrated battery and ultra-efficient electronic design, no longer needs mains power. Useful for products that do not need to be powered from the UNO EVO, such as power tools and headphones.

On the premise; “keep what is good and improve where it can,” the UNO series is now more versatile, powerful and capable ever. This is what we at SENS call: **The power of simplicity.**

Comparison	SENS UNO EVO	SENS UNO
Base diameter	58 mm	58 mm
Base height	19 mm	19 mm
Quick charge portale	PD	Not available
Input	100-240VAC 0.5A 50/60Hz	100-240VAC 0.5A 50/60Hz
Output	5V up to 3000mA 9V up to 2220mA 12V up to 1670mA	5V up to 1500mA
Ports	2, USB/C autodetect mode 1: Charging & Protection 2: Protection only	1, RJ type
Battery	CR2032, replaceable	DL2450, replaceable
Battery lifetime	Up to 26 months*	Up to 36 months*
Buzzer	95 dB	95 dB
Display stands	All UNO Acrylic stands	All UNO Acrylic stands
Display mounting	Adhesive	Adhesive and screwmount

*when used without power supply (protection only)
